24.06.001 June 2024

Report No.	Module	Defect Reported
219	ACTIVITY SETUP	Corrected the issue where "breaks travel" did not display as ticked after saving and reopening the activity record.
207	BULK PRICE UPDATE	Corrected issue where date format displayed incorrectly in bulk price update
237	BULK PRICE UPDATE	Added "is backup done" message to bulk price update and added bill unit filter
241	CHSP	Corrected issue where rerunning a report for the same period recreated the entire upload if a new service had been added to the period
DTV-131	CONFIGURATION	Corrected Issue: The communication group continues to display even after expiration.
DTV-119	CONFIGURATION	Corrected issues while attempting to save when adding a new case management activity.
DTV-118	CONFIGURATION	Corrected issue while trying to save when adding a new service
209	CONFIGURATION	Added ability to create an unlimited number of vaccination types to support user-defined vaccination types in new recipient module clinical record
DTV-101	DAYMANAGER	Adjusted Daymanager to allow saving of individual column widths
DTV-134	DAYMANAGER	Corrected Issue: Unable to save Service Details when attempting to enable the "publish to mobile app" checkbox in an existing service
201	DAYMANAGER	Corrected issue where unallocated a service and selecting not to create leave caused an incorrect message to display
202	DAYMANAGER	Corrected an issue where cancelling a shift followed by opening a roster generated an award warning and caused daymanager to not exit properly.
206	DAYMANAGER	The cancellation wizard has been altered, so if the user manually chooses any cancellation code not registered as no notice or short notice code for the program, then the wizard defaults to with notice profile.
208	DAYMANAGER	Cancellation has been adjusted to maintain service settings/groups in cancellation service, so cancellations are displayed against the originating group in the group/centre or transports.
210	DAYMANAGER	Altered to allow exclusion from break check for sleepovers by setting special shift type to sleepover in activity configuration
220	DAYMANAGER	Updated add new attendee and view group all up/this timeslot forms to new UI standard
221	DAYMANAGER	Corrected the issue where changing day time to date outside the displayed date range caused multiple messages and did not complete

Report No.	Module	Defect Reported
236	DAYMANAGER	Adjusted service details form to correct the issue where the default mobility code from the client was not displaying in detail.
230	DEX	Adjusted dex report to prevent missing client code against group lines
229	HCP BALANCE EDIT	Added file export and checkbox to include or exclude column headers in the export
213	INCIDENTS	Corrected issue where ongoing notes did not print
DTV-147	INVOICING	Corrected Issue: The address size is incorrect when inserting the invoice into a window envelope.
240	JOBSHEET	Corrected issue where job sheets printed staff address and phone
211	MAIN MENU	Corrected issue where saving document template caused display issue on editing and then immediately opening the template afterwards
216	MTA DASHBOARD	Adjusted shiftreport flag to display as green tickbox instead of red flag
217	MTA DASHBOARD	Added ability for MTA dashboard to use the default app, not a category, to determine the existence of shift report
223	MTA DASHBOARD	Added a new default email template from the MTA dashboard
239	MTA DASHBOARD	Added options to allow shift reports to be set to viewable or not per user
234	PUBLISH ROSTERS	Adjusted roster publishing to prevent info-only activities from being converted into leave activities
DTV-120	PURCHASE ORDER	Corrected Issue where order details and special instructions are not transferring to the printed version correctly
204	PURCHASE ORDERS	Adjusted data entry so items flagged as item/service bill unit automatically force qty supplied to 1
205	PURCHASE ORDERS	Adjusted po job sheet print to resolve minor formatting issues
DTV-126	RECIPIENTS	Corrected the issue where Saving the clinical note functions properly, but the text is not displayed as intended.
DTV-096	RECIPIENTS	Corrected Issue where the back arrow does not work after adding a new recipient
203	RECIPIENTS	Adjusted email subject for emailed rosters and recipient summary sheets to generic wording - "Please see attached as requested".
212	RECIPIENTS	Quote/budget: adjusted GST to allow four decimal places per line item
215	RECIPIENTS	Added new front screen alert dashboard to recipients module
232	RECIPIENTS	Corrected the issue where ID labels did not print and gave an error message

Report No.	Module	Defect Reported
242	RECIPIENTS	Corrected intermittent issue where the user could not exit from the quote screen when opening a quote and immediately trying to exit
DTV-150	RECIPIENTS2	Corrected the issue where an error occurred when printing recipient information from the care plan section.
DTV-149	RECIPIENTS2	Corrected Issue: When reinstating, the modal popup has blocked buttons.
DTV-148	RECIPIENTS2	Corrected Issue: When suspending, the modal popup has blocked buttons
DTV-142	RECIPIENTS2	Corrected Issue where changing carer status in the personal tab did not save.
DTV-139	RECIPIENTS2	Corrected an issue where an error occurred when adding contact information for other parties.
DTV-138	RECIPIENTS2	Corrected Issue: The text is truncated when a reminder is added.
DTV-135	RECIPIENTS2	Corrected Issue: A visual glitch exists when writing up case notes or OP notes through the admin interface.
DTV-133	RECIPIENTS2	Corrected Issues when encountering an error while attempting to edit a medical diagnosis.
DTV-132	RECIPIENTS2	Corrected Issue: In Recipients v2, the 'Exclude from MDS' checkbox is not present.
DTV-129	RECIPIENTS2	Corrected Issue; Unable to add a contact in the personal tab of recipients.
DTV-128	RECIPIENTS2	Corrected Issue: The modal UI marking a client as deceased appears to be an older version.
DTV-127	RECIPIENTS2	Correct issue where the collapse all button in every tab doesn't seem to work
DTV-125	RECIPIENTS2	Corrected visual error in the clinical section when adding a clinical alert.
DTV-124	RECIPIENTS2	Corrected Issue where when saving a new case note, clicking "No" in the spellcheck does not respond
DTV-123	RECIPIENTS2	Corrected Issue where the save button in case notes is truncated or cut off.
DTV-122	RECIPIENTS2	Corrected the issue where attempting to save changes in the profile tab did not work in the accounting tab.
DTV-112	RECIPIENTS2	Corrected Issue where the user interface in the incidents section appears outdated.
DTV-111	RECIPIENTS2	Corrected cosmetic display issue when saving the incident.
DTV-110	RECIPIENTS2	Corrected Issue in the loans section when selecting a program.
DTV-107	RECIPIENTS2	Corrected the issue where, when adding an incident, the gender information is not transferring correctly.
DTV-106	RECIPIENTS2	Corrected Issue where no groups are available in the dropdown for other contacts, but they are present for next of kin.
DTV-104	RECIPIENTS2	Corrected visual error when adding a contact in the personal tab.
DTV-103	RECIPIENTS2	Corrected Issue where navigating to a client when not in the personal tab, then navigating to the personal TAB displays the previously accessed recipient name and notes
DTV-099	RECIPIENTS2	Corrected Issue where unable to add a health condition.
DTV-098	RECIPIENTS2	Corrected Issue: There is a visual error in the clinical tab when adding health conditions.
DTV-091	RECIPIENTS2	Corrected an issue where the feature for marking a deceased client was not functioning correctly.
224	REMINDERS	Corrected daily reminder filter not working
DTV-154	REPORTS	Corrected the Issue where the HR note categories differ when viewing HR Notes reports in the HR Reports section.
225	REPORTS	Added loan item notes to user-defined staff reports as a selectable field
226	REPORTS	Added follow-up email address as a selectable field in user-defined reports

Report No.	Module	Defect Reported
227	REPORTS	Corrected the issue where services in the period report did not reset after the initial running
235	REPORTS	Adjusted recipient listing to correct a formatting error with overwriting if selected to display recipient code
238	REPORTS	Adjusted staff user-defined reports field name category to service region/main category.
243	REPORTS	HR notes added privacy enforcement to the HR notes report, which was already implemented in the HR notes profile in the staff record.
245	REPORTS	Adjusted user custom SQL reports to allow multiple where conditions (e.g. SHIFTS NOT COMPLETED)
DTV-117	ROSTERS	Corrected Issue where the arrows next to selected staff members are not functioning correctly
231	ROSTERS	Corrected issue where lock day/time on shift was not enforced in month diary view
DTV-137	STAFF	Corrected Issue: cancelling staff leave cancels it in the profile, but it still appears active in the day manager.
DTV-136	STAFF	Corrected the Issue of encountering an error when attempting to edit staff leave.
DTV-116	STAFF	Corrected the Issue where the print history feature is not functioning correctly.
DTV-115	STAFF	Corrected Issue: The text box in position history and other information is truncated or cut off.
DTV-114	STAFF	Corrected Issue where users were unable to add informal attributes.
DTV-113	STAFF	Corrected the Issue where the print button did not respond
200	STAFF	Other info on staff - the corrected issue where the initial opening of staff does not populate other info - notes
214	STAFF	Corrected the issue where you could not put leave in if a cancelled leave application existed in the date range
218	STAFF	Adjusted staff record user permissions to only allow access to right-click admin menu for level 4 access users
222	STAFF	Corrected issue with staff module permissions
233	STAFF	Adjusted staff leave to allow alteration of notes even if leave started and allowed cancellation for system administrators.
228	TIMESHEET	Adjusted recipient view to filter out inactive recipients when scrolling through clients
244	TRAVEL INTERPRETER	The updated user interface of the travel interpreter screen
246	TRAVEL INTERPRETER	Corrected wrong pay type issue in newly added charge travel to base for NDIA option
